

Celebrate Women, Empower Girls

Honour inspiring women and raise funds for girls education.

EDUCATE A GIRL AND CHANGE THE WORLD

If an adolescent girl in rural Africa can overcome the barriers in her path, she will be healthier, wealthier, marry later, and develop skills to drive positive change in her community.

Yet, too many families in this region face an impossible decision: their livelihood or their children's education.

Take part in our fundraising challenge and directly empower girls with the education they need to thrive and shape a brighter, more equitable global future.

If you donate between 3–10 December every penny raised will be matched

The school's advocacy for gender equality means that girls in these remote rural areas have an opportunity to be educated. When a girl is educated, they will also push for education in their families and for their communities.

Communities are lifted wherever a PEAS school is built.
